

2018 ANNUAL REPORT

**CENTER FOR RESEARCH IN INFORMATION AND CYBER SECURITY
(CRICS)**

Faculty of Engineering, the Built Environment and Information Technology

Entity Leader: Prof Reinhardt A Botha

This annual report and the audited financial statement were approved by the Faculty Board on the _____ day of _____ 2019

	Print name	Signature	Date
Entity leader	Prof R A Botha		
Finance	Mr Rheinard van Onselen		
Chairperson of Advisory Board (If applicable)	Prof D Pottas		
Chairperson: Faculty RTI Committee	Prof D Pottas		
Dean	Prof O Franks		
DVC: RE (when applicable)			

1. Mission / purpose

The general objective/purpose of CRICS will be to address all types of activities that can assist in enhancing information and cyber security in general. Obviously one of the main goals is to be very academic and research inclined. Postgraduate research and research papers as outputs will play an important role. Along with this, activities to assist and enhance information and cyber security in the community, the government, corporates, etc. will take place. A number of projects are already taking place, such as; assisting schools to educate children, organizations to raise security awareness, policy proposals to governmental departments, etc. Thus, the goal of CRICS is to ensure all of these activities are taking place from one coordinating body, namely CRICS

1.1 Alignment with vision and mission of the Nelson Mandela University

The security of information and cyber related services are truly multi-disciplinary in nature. CRICS functions in close relationship with the Nelson Mandela University's Institutional Research Theme called 'Cyber Citizenship'. CRICS aims to focus primarily on the security aspects related to Cyber

2. Governance structures

During 2018 CRICS established a new Advisory Board consisting of;

- Dean/Deputy Dean – Dr Oswald Franks / Prof Dalenca Pottas
- DoS – Dr Sue Petratos
- Director of CRICS – Prof Reinhardt A Botha
- Mr Samrej Ramjith – Partner, Cybersecurity, E&Y
- Mr Agbor Kande – CIO, SA Postbank
- Ms Susan Potgieter – Head: Relationship Management, SABRIC
- Mr Gustav d'Assonville Manager, Technology Advisory: Eastern Cape, KPMG
- Mr Jaco Maass – General Manager Information & Communication Technology, BKB
- Dr Noxi Gcaza – Cybersecurity Researcher, CSIR.
- Dr Jackie Phahlamohlaka – Competency Area Manager, DPSS, CSIR.
- Mr Nick Hall – Senior Security Engineer, Dimension Data

Similarly we broadened the Management Committee Structure to include senior staff member in CRICS.

CRICS Management Committee:

- Director of CRICS – Prof Reinhardt Botha
- DoS – Dr Sue Petratos
- Senior staff members in CRICS – Profs Lynn Futcher, Mariana Gerber and Kerry-Lynn Futcher

2.1 Governance Structure meetings

The previous Advisory Board was dissolved and nomination for the new Advisory Board accepted through a round robin e-mail process between 22 and 23 October 2018. The new Advisory Board held its first meeting on 23 November 2018 and was chaired by Prof Pottas.

The CRICS Management Committee met on 3 occasions:

- 29 Jan 2018
- 26 Feb 2018
- 16 July 2018

3. Staff Members

The following staff members are part of CRICS, but are full-time staff members in the School of ICT.

- Prof Reinhardt Botha
- Prof Johan van Niekerk (until 31 July 2018)
- Prof Kerry-Lynn Thomson
- Prof Mariana Gerber
- Prof Lynn Fitcher
- Mr Luzuko Tekeni
- Mr Phumezo Ntlatywa (from December 2018)
- Mr Vuyolwethy Mdunyelwa (from October 2018)
- Mr Timothy Speckman (from October 2018)

The following Emeritus & HEAVA professors and Research Associates are involved with CRICS:

- Prof Rossouw von Solms, Emeritus Professor
- Prof Steve Furnell (University of Plymouth)
- Prof Johan van Niekerk (Noroff University College, Norway)
- Dr Noxi Gcaza (CSIR)
- Dr Renier van Heerden (CSIR)

3.1 Human resources issues

The Director of CRICS, Prof Rossouw von Solms, retired at the end of January 2018. Prof von Solms will remain somewhat involved as an Emeritus Professor.

Prof Johan van Niekerk, resigned and emigrated to Norway in August 2018. He has been appointed as an Honorary Professor, and will remain active in supervisory capacity with students

Discuss any human resources matters, as appropriate – for example, staff turnover, resignations, appointments *etc.*

4 Goals / targets for the year under review

4.1 Statement of goals / targets

CRICS's objectives:

- To draw together and host the research efforts and endeavours related to information and cyber security;
- To conduct and disseminate research in the fields of Information and Cyber Security, and
- To engage with governmental, public and private organizations and society at large towards the implementation of safe and secure information and cyber security practices.

Typical outputs related to the objectives stated above:

- To operate, function and be known as an internationally renowned research group in the area of information and cyber security;
- To supervise and successfully graduate as many as possible post-graduate students in the aforementioned fields;
- To publish as many related research publications through: journal papers, conference papers and contributions to books.

4.2 Strategies employed to achieve goals/target

Typical strategies and actions employed to meet objectives:

- To attract quality post-graduate students, both from within the Nelson Mandela University as well as from outside the Nelson Mandela University (mostly part-time students);
- To create a favorable and stimulating on-campus atmosphere for post-graduate students (e.g. a modern laboratory/office environment);
- To ensure a healthy relationship exist between the supervisors and students (e.g. Café Gigabyte – post-graduate student and supervisor cafeteria);
- To build and maintain a healthy, pleasant and focused group culture between senior members of CRICS;
- To create opportunities for post-graduate students to grow and excel with respect to their research experience (e.g. weekly research colloquiums);
- To keep close relationships with other information and cyber security research groups, both nationally and internationally (e.g. at UNISA, UJ and Plymouth).

4.3 Output

The output of CRICS mainly comprise:

- Publications in peer-reviewed outlets
- Graduation of post-graduate students

Please see Appendices A and B for details.

4.4 Self-assessment of achievement of goals/targets

Studying Appendices A & B it is clear that CRICS did well from a quantitative point of view.

From a qualitative point of view it is also clear and noticeable that the full-time (on campus) post-graduate students related to CRICS are a happy group of students, enjoying their studies whilst progressing well. The underlying and mutual group dynamics amongst CRICS students and between students and supervisors are ensuring a healthy and productive atmosphere that enhances success.

With the departure of two senior staff member the remaining senior staff members are taking strain, but the appointment of new staff will in the long run hopefully address that. The new staff need to be brought to PhD-level to have the biggest impact.

5. Highlights and special achievements

10 journal papers and 4 papers in conference proceedings were published in 2018 and submitted for DHET subsidy purposes.

6. Finances

6.1 Financial review

CRICS has no specific funding resources. The funding used to conduct the business related to CRICS all stem from research entities related to the members of CRICS.

In all cases the individual research, incentive funding (NRF rated members), Thuthuka and engagement entities were used to fund all CRICS related research and engagement-related financial expenses. All of these expenses are dependent on normal Nelson Mandela University rules & regulations.

Entities applicable are:

Prof Mariana Gerber: H248 & M011
Prof Reinhardt Botha: H232, H254 & M038
Prof Kerry-Lynn Thomson: G470 & L243
Prof Lynn Futcher: H363 & L280

Prof R von Solms: H223, M037 & N263
Prof Johan van Niekerk: H344, M027 & 3502

CRICS was allocated the cost centre H988. It started 2018 with an amount of 20124.90 that remained untouched for 2018.

6.2 Financial statements

See attached financial statements for cost centre H988 as Appendix D.

7. Additional information

N/A

8. Mandatory Summary for Senate

CRICS primarily contribute through post-graduate supervision and research publications . In total 10 journal publications and 4 conference papers were published during 2018. Six (6) master's students that graduated in April and December 2018 were supervised by CRICS members.

The annual report must be DATED AND SIGNED by the Director, Manager or Head of the Entity, the Chairperson of the Governance Structure, and the Dean.
